— THE OPPORTUNITY

Your audience is already waiting.

Bus-station passengers wait 15–40 minutes with nothing to look at. Your ad fills that time.

15–40 MIN

AVERAGE DWELL TIME, EVERY VISIT

Unskippable

Eye-level

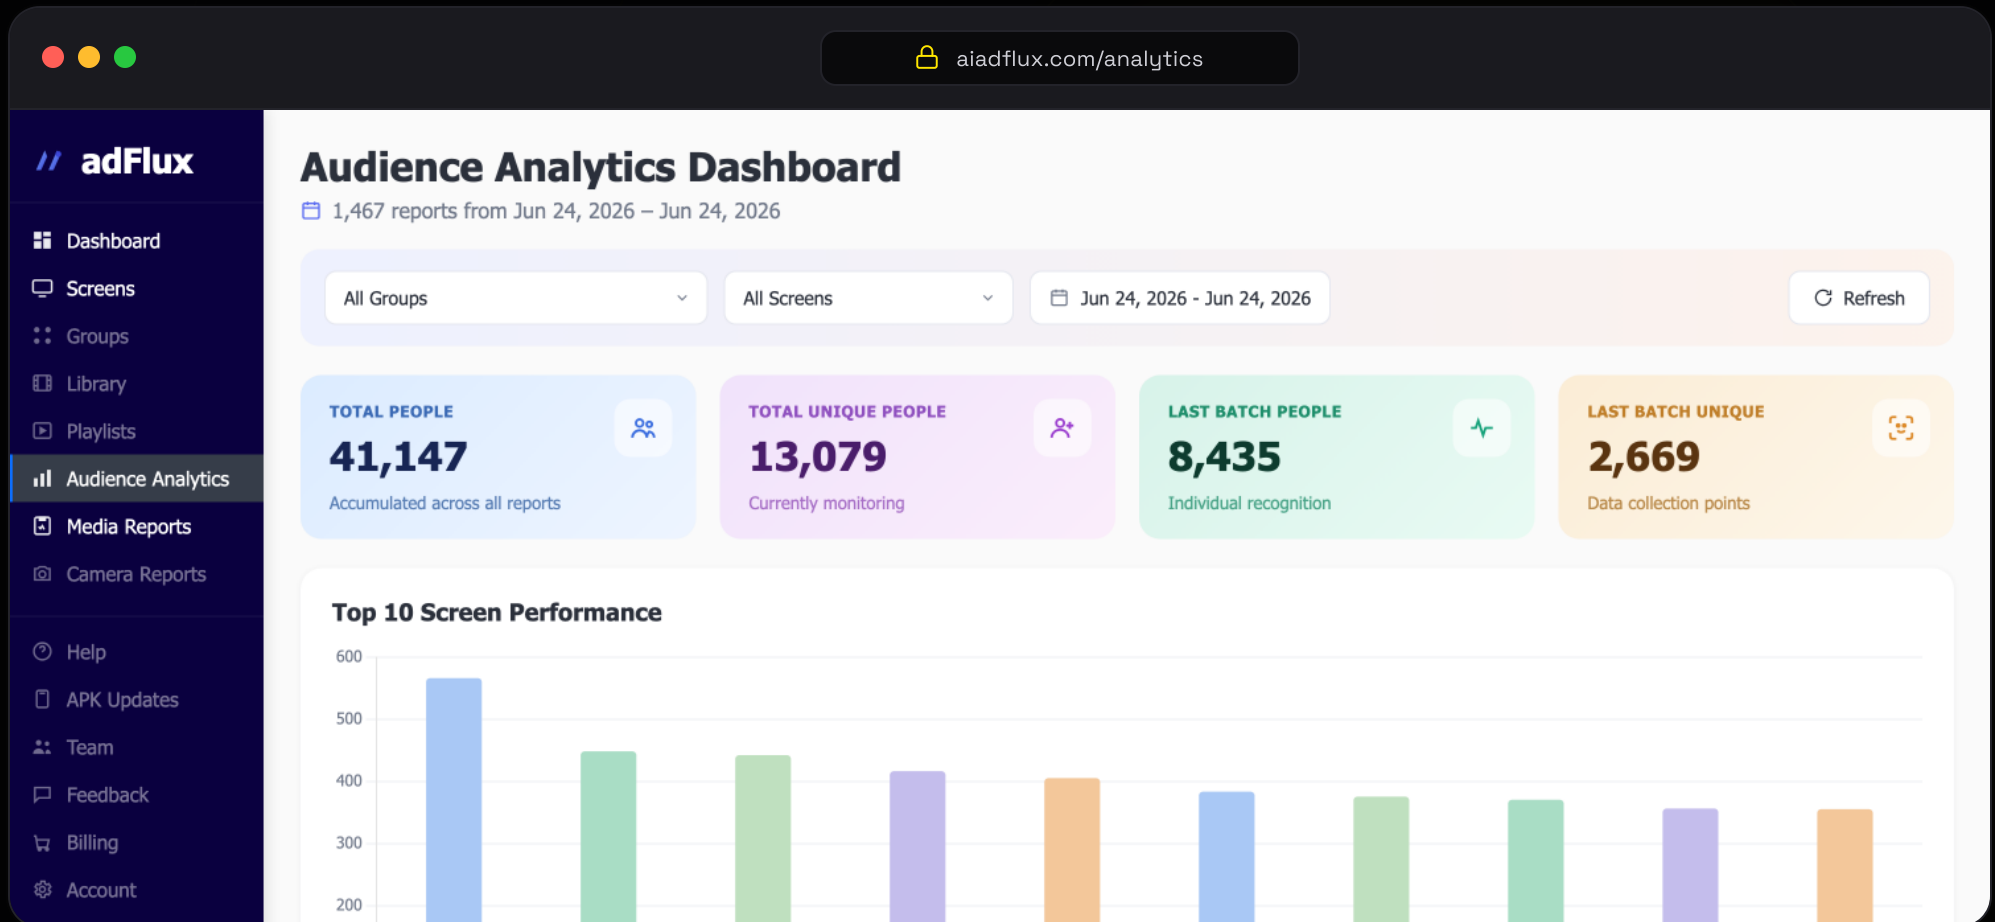

On loop

● LIVE PROOF

See exactly **who's watching.**

Not a media-plan PDF. A live console that shows footfall, demographics and verified plays as they happen.

Real audience analytics — live on the adFlux platform.

STEP 1 • HOW IT WORKS

Scan the screen. Land in WhatsApp.

Every creative carries a big QR. A passer-by points their phone — the chat opens on our number, and the **scan is counted live**.

DAILY VIEWS

30K+

UNIQUE / DAY

Every screen sits inside a GSRTC concourse — a captive audience that **waits**, not one that scrolls past. The number that matters isn't impressions. It's the same commuter, seen again tomorrow.

Six reasons it works.

Massive reach

264 screens across **20** cities — one network, statewide footfall.

High-frequency recall

100 plays a day per screen — repetition that locks the brand in.

Captive audience

Passengers waiting with nowhere else to look — eyes already on the screen.

AI precision

Age, gender, expression and dwell — every impression measured, not estimated.

Measurable response

A QR scan turns a glance into a lead — attribution from screen to inbox.

Govt-approved trust

Official screens inside GSRTC, backing **700+** clients already on board.

TRUSTED BY

700+ clients. 2,400+ campaigns.
